

Hand & Nail Care Products For Private Label

We use sound scientific research and reasoning with support from respected suppliers to select ingredients that will give our products the highest level of performance and the highest levels of consumer satisfaction.

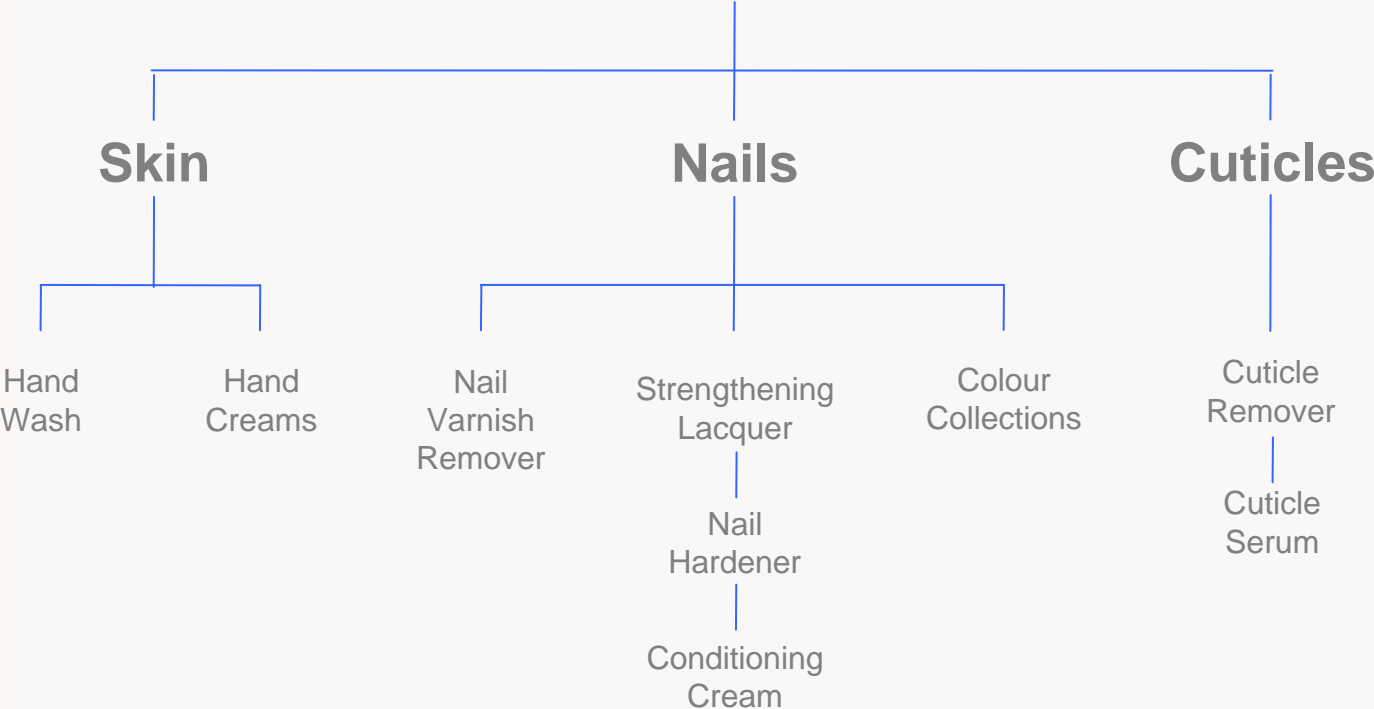

All ingredients have a history of safe use within the cosmetics and toiletries industry and are sourced from established reputable suppliers. We do not use any animal derived ingredients such as honey, silk, lanolin, collagen or ingredients which have been tested on animals. Our formulations are not tested on animals.

By choice we avoid certain ingredients which receive negative press. By avoiding these ingredients and setting ourselves the challenge of not using old formulating techniques we continuously look for the latest ingredients to give consumers the best products available and look to set new benchmarks in the market.

All formulations are safety assessed by a qualified toxicologist with over 20 years high level experience on the industry and certified as being compliant with the EU Cosmetics Directive and considered safe for sale in all European countries. All products are manufactured in the UK and follow strict manufacturing and quality control procedures to ensure all products are manufactured correctly, free from any defects and dispatched to our customers meeting their requirements.

Hand Products

A wide range of products covering the whole hand and nail are available which can be supplied in packaging of your choice.

A range of standard packaging is available with low minimum order quantities to which you brand name and design can be applied. We can source a wide variety of packaging in different formats to match with the designs you may already have. If you are starting a new project we are able to offer a full design and branding service for an entire range of products

Subject to higher production quantities a variety of different caps become available in different finishes. Further details and compatible bottles are available on request

Nail Kind Hand Wash

A gentle pH balanced foaming hand wash combining strengthening proteins with moisturizers, Panthenol and Vitamin E to leave hands soft and nails nourished, regular use will reduce breakage and give visibly smoother healthier nails.

- Gentle cleansing action
- Moisturizes and conditions hands
- Strengthens nails giving reduced breakage
- Enriched with Vitamin E, Panthenol and proteins

Anti Ageing Hand Cream

Everyday life can take its toll on hands leaving them dry, rough and prematurely aged. Our light and easily absorbed cream containing Grape Seed Oil, Sunflower Oil with extracts of Chamomile, Avocado and Olive along with Vitamins A and E replaces lost moisture and nutrients leaving hands naturally soft , smooth with a satin feel.

- Natural based formulation
- Moisturizes & conditions
- 5 Natural ingredients
- pH Balanced
- 2 Vitamins

Nail Strengthening Cream

A light and easily absorbed cream combining 3 vegetable proteins with conditioning algae extract and Panthenol to focus on strengthening and conditioning nails, making them stronger, smoother, less brittle with reduced breakage.

- pH balanced
- Natural based formulation
- 5 Strengthening ingredients
- Smoothes & strengthens nails
- Increases moisture levels in the nail

Nail Strengthening Lacquer

Ideal for quickly treating weak and flaky nails, although this lacquer has a purple colour it dries within a minute to give a crystal clear transparent finish depositing two resins to give strength and flexibility while providing a protective coating to the nail bed.

- Increases strength & flexibility
- Transparent matte finish
- Protects the nail bed
- Quick drying

Nail Brightening Lacquer

This lacquer instantly whitens, brightens and corrects yellowing of the hand and toe nails. It can be used on both natural and artificial nails and if needed as a base coat to prevent further staining of the nail. It also prevents existing stains affecting the appearance of newly applied varnish.

Repairing Cuticle Serum

The cuticle and surrounding area can become dry and stressed due to filing, using nail varnish remover or suffer from irritation. Our conditioning cuticle serum has been specially formulated with moisturizers, vitamins, extracts of sage, carrot and rosehip along with avocado and olive oils to immediately relieve dryness and reduce the appearance of stressed cuticles and the surrounding area leaving it hydrated and nourished while promoting healthy nail growth.

- Perfect finishing touch to a manicure
- Promotes healthy nail growth
- Immediately relieves dryness
- Hydrates and nourishes

Cuticle Oil

This conditioning cuticle oil is a blend of Wheatgerm Oil rich in natural vitamin E and Almond Oil which easily penetrates the cuticle and porous nail plate to keep it soft, supple and less prone to breaking and peeling. Ideal for daily care to keep area in excellent condition and cuticles will be easy to push back during manicures.

- Based on natural oils
- Light and easily absorbed
- Contains Natural Vitamin E and Triglycerides
- Daily use keeps cuticles in excellent condition

Cuticle Remover

Quickly and gently removes the cuticles preparing the nail for neat application of nail varnish or artificial nails.

Acetone Free Nail Varnish Remover

An essential product enriched with conditioning ingredients quickly and easily removes all types of nail varnish from both natural and artificial nails.

- Acetone free
- Colour free
- Suitable for artificial nails
- Contains conditioning proteins
- Removes dark colours, glitter and sparkle type varnish

Alcohol Free Hand & Nail Sanitiser

Our alcohol free water based sanitiser formulation is highly effective against a wide range of bacteria and virus. Use to sanitise the hands and nails before applying treatments or to damaged cuticles to protect against infections

- Alcohol free
- Water based
- Enriched with moisturisers
- No animal derived ingredients
- Broad spectrum of activity
- Tested to EN1276 and EN1500

Coloured Nail Lacquers

Our varnish range is based on these 12 most popular colours which have been the best selling colours over the past two years in the UK market.

In addition to these we will also offer seasonal collection and work with 3 European companies to predict what will be popular for the coming year with, gloss, pastel, metallic and pearlescent effects

Bold Bright Vivid Colours Containing Glitter

Soft & Cool Pastel Shades With & Without Glitter

Take time out to pamper your hands and give yourself the classic French manicure with a perfect bright glossy durable finish.

The manicure starts with a matte base coat to protect the nail bed and promote adhesion of the following natural pink varnish then easily add a bright white edge and finish with a protective glossy top coat.

Included with the set is a 10 step instruction card to ensure anybody can use the products effectively to achieve a perfect finish
